Statement D

INTRODUCTION

The Louisiana auctioneers Licensing Board was created by the Louisiana State Legislature under the provisions of Louisiana Revised Statute 36:4.1. The following is a brief description of the operations of Louisiana Auctioneers Licensing Board which is located in Baton Rouge, Louisiana.

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. BASIS OF ACCOUNTING

In April of 1984, the Financial Accounting Foundation established the Governmental Accounting Standards Board (GASB) to promulgate generally accepted accounting principles and reporting standards with respect to activities and transactions of state and local governmental entities. The GASB has issued a Codification of Governmental Accounting and Financial Reporting Standards (GASB Codification). This codification and subsequent GASB pronouncements are recognized as generally accepted accounting principles for state and local governments. The accompanying financial statements have been prepared in accordance with such principles.

The accompanying financial statements of Louisiana Auctioneers Licensing Board present information only as to the transactions of the programs of the board as authorized by Louisiana statutes and administrative regulations.

Basis of accounting refers to when revenues and expenses are recognized and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

The accounts of the board are maintained in accordance with applicable statutory provisions and the regulations of the Division of Administration – Office of Statewide Reporting and Accounting Policy as follows:

Revenue Recognition

Revenues are recognized using the full accrual basis of accounting; therefore, revenues are recognized in the accounting period in which they are earned and become measurable.

Expense Recognition

Expenses are recognized on the accrual basis; therefore, expenses, including salaries, are recognized in the period incurred, if measurable.

B. BUDGETARY ACCOUNTING

The appropriations made for the operations of the various programs of the Louisiana Auctioneers Licensing Board are annual lapsing appropriations.

- 1. The budgetary process is an annual appropriation valid for one year.
- The agency is prohibited by statute from over expending the categories established in the budget.
- 3. Budget revisions are granted by the Joint Legislative Budget Committee, a committee of the Louisiana Legislature. Interim emergency appropriations may be granted by the Interim Emergency Board
- 4. The budgetary information included in the financial statements include the original appropriation plus subsequent amendments as follows:

	<u>APPF</u>	ROPRIATIONS
Original approved budget	\$	95,500
Amendments:		
Final approved budget	 \$	95,500

- C. **DEPOSITS WITH FINANCIAL INSTITUTIONS AND INVESTMENTS** (If all agency cash and investments are deposited in the State Treasury, disregard Note C.)
 - 1. DEPOSITS WITH FINANCIAL INSTITUTIONS

For reporting purposes, deposits with financial institutions include savings, demand deposits, time deposits, and certificates of deposit. Under state law the Louisiana Auctioneers Licensing Board may deposit funds within a fiscal agent bank selected and designated by the Interim Emergency Board. Further, the board may invest in time certificates of deposit in any bank domiciled or having a branch office in the state of Louisiana; savings accounts or shares of savings and loan associations and savings banks, and in share accounts and share certificate accounts of federally or state chartered credit unions.

For the purpose of the Statement of Cash Flows, all highly liquid investments (including restricted assets with a maturity of three months or less when purchased) are considered to be cash equivalents.

Deposits in bank accounts are stated at cost, which approximates market. Under state law these deposits must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These pledged securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank in the form of safekeeping receipts held by the State Treasurer.

Following GASB Statement 3, deposits were classified into three categories of custodial credit risk depending on whether they were insured or collateralized, and who held the collateral and how it was held. Category 1 – Deposits that are covered by insurance (FDIC) or collateralized with securities that are held by the entity in the entity's name or registered in the entity's name. (separate disclosure no longer required)

<u>Category 2</u> – Deposits that are not insured but are collateralized with securities that are held by the financial institution's trust department or agent and are in the entity's name. (separate disclosure no longer required)

<u>Category 3</u> – Deposits that are not covered by insurance and also are not collateralized. Not collateralized includes when the securities (collateral) are held by the financial institution's trust department or agent and they are not in the entity's name. (separate disclosure still required)

GASB Statement 40 amended GASB Statement 3 to eliminate the requirement to disclose all deposits by the 3 categories of risk listed above. GASB Statement 40 requires only the disclosure of deposits that are considered to be exposed to custodial credit risk. An entity's deposits are exposed to custodial credit risk if the deposit balances are either 1) uninsured and uncollateralized, 2) uninsured and collateralized with securities held by the pledging financial institution, or 3) uninsured and collateralized with securities held by the pledging financial institution's trust department or agent, but not in the entity's name.

The deposits at June 30, 2005, consisted of the following:

		<u>Cash</u>	Certificates of Deposit	Other (Describe)		<u>Total</u>
Deposits in Bank Accounts Per Balance Sheet	\$	233,574 \$		\$	=\$ <u>-</u>	233,574
Bank Balances of Deposits Exposed to Custodial Cre-	dit Risk	:				
a. Uninsured and uncollateralized		137,066				137,066
b. Uninsured and collateralized with securities				<u> </u>		
held by the pledging institution						
c. Uninsured and collateralized with securities held						
held by the pledging institution's trust department						
or agent, but not in the entities name						
Total Bank Balances - All Deposits	\$	237,066 \$	_ _	_ \$	\$	237,066

NOTE: The "Total Bank Balances - All Deposits" will not necessarily equal the "Deposits in Bank Account per Balance Sheet".

The following is a breakdown by banking institution, program, account number, and amount of the balances shown above:

Banking institution	on <u>Program</u>	<u>Amount</u>
1. Chase	#1580783346	\$ 8,746
2. Chase	#2006007589	 102,952
3. Chase	#2115098655	 123,876
4.		
Total		\$ 235,574

Cash in State Treasury and petty cash are not required to be reported in the note disclosure. However, to aid in reconciling amounts reported on the Balance Sheet to amounts reported in this note, list below any cash in treasury and petty cash that are included on the Balance Sheet.

Cash in State Treasury	\$
Petty cash	\$ 100

2. INVESTMENTS

The Louisiana auctioneers Licensing Board does not maintain investment accounts as authorized.

Custodial Credit Risk

Disclosures

Investments can be exposed to custodial credit risk if the securities underlying the investment are uninsured and unregistered, not registered in the name of the entity, and are held either by the counterparty, or the counterparty's trust department or agent but not in the entity's name.

GASB Statement 40 amended GASB Statement 3 to eliminate the requirement to disclose all investments by the 3 categories of risk. GASB Statement 40 requires only the separate disclosure of investments that are considered to be exposed to custodial credit risk. In addition, the total reported amount and fair value columns still must be reported for total investments regardless of exposure to custodial credit risk. Those investments exposed to custodial credit risk are reported by type in one of two separate columns depending upon whether they are held by a counterparty, or held by a counterparty's trust department or agent not in the entity's name.

- a. Any income from investments associated with one fund that is assigned to another fund_____

D. CAPITAL ASSETS-INCLUDING CAPITAL LEASE ASSETS

The fixed assets used in the Special Purpose Government Engaged only in Business-Type Activities are included on the balance sheet of the entity and are capitalized at cost. Depreciation of all exhaustible fixed assets used by the entity are charged as an expense against operations. Accumulated depreciation is reported on the balance sheet. Depreciation for financial reporting purposes is computed by the straight-line method over the useful lives of the assets.

^{*} Should be used only for those completed projects coming out of construction-in-progress to fixed assets; not associated with transfers reported elsewhere in this packet.

E. INVENTORIES

The unit's inventories consist of office supplies. These are perpetual inventories and are expensed when purchased.

F. RESTRICTED ASSETS

Restricted assets in the Louisiana Auctioneers Licensing Board at June 30, 2005 (fiscal year end), reflected at \$40,000 in the non-current assets section on Statement A, consist of \$40,000 in cash with fiscal agent. The assets have been restricted by the board to provided CPE to auctioneers at no cost as required by statue.

G. LEAVE

COMPENSATED ABSENCES

The Louisiana Auctioneers Licensing Board has the following policy on annual and sick leave:

Employees earn and accumulate annual and sick leave at various rates depending on their years of service. The amount of annual and sick leave that may be accumulated by each employee is unlimited. Upon termination, employees or their heirs are compensated for up to 300 hours of unused annual leave at the employee's hourly rate of pay at the time of termination. Upon retirement, unused annual leave in excess of 300 hours plus unused sick leave is used to compute retirement benefits.

The cost of leave privileges, computed in accordance with GASB Codification Section C60, is recognized as a current year expenditure in the fund when leave is actually taken; it is recognized in the enterprise funds when the leave is earned. The cost of leave privileges applicable to general government operations not requiring current resources is recorded in long-term obligations.

2. COMPENSATORY LEAVE

Employees who are considered having non-exempt status according to the guidelines contained in the Fair Labor Standards Act may be paid for compensatory leave earned (K-time). Upon termination or transfer, an employee will be paid for any time and one-half compensatory leave earned and may or may not be paid for any straight hour-for-hour compensatory leave earned. Compensation paid will be based on the employees' hourly rate of pay at termination or transfer. The liability for accrued payable compensatory leave at ______ (fiscal close) computed in accordance with the Codification of Governmental Accounting and Financial Reporting Standards, Section C60.105 is estimated to be \$_____. The leave payable (is) (is not) recorded in the accompanying financial statements.

H. RETIREMENT SYSTEM

Substantially all of the employees of the board are members of the Louisiana State Employees Retirement System, a cost sharing multiple-employer, defined benefit pension plan. The System is a statewide public employee retirement system (PERS) for the benefit of state employees, which is administered and controlled by a separate board of trustees.

All full-time (BTA) employees are eligible to participate in the System. Benefits vest with 10 years of service. At retirement age, employees are entitled to annual benefits equal to \$300 plus 2.5% of their highest consecutive 36 months' average salary multiplied by their years of credited service.

Vested employees are entitled to a retirement benefit, payable monthly for life at (a) any age with 30 years of service, (b) age 55 with 25 years of service, or (c) age 60 with 10 years of service. In addition, vested employees have the option of reduced benefits at any age with 20 years of service. The System also provides death and disability benefits. Benefits are established or amended by state statute. The System issues an annual publicly available financial report that includes financial statements and required supplementary information for the System. That report may be obtained by writing to the Louisiana State Employees Retirement System, Post Office Box 44213, Baton Rouge, Louisiana 70804-4213, or by calling (225) 922-0608 or (800) 256-3000.

Members are required by state statute to contribute 7.5% of gross salary, and the board is required to contribute at an actuarially determined rate as required by R.S. 11:102. The contribution rate for the fiscal year ended June 30, 2005, decreased to ___% of annual covered payroll from the 13% and 13% required in fiscal years ended June 30, 2004 and 2003, respectively. The boards contributions to the System for the years ending June 30, 2005, 2004, were \$_____, and \$2,919, respectively, equal to the required contributions for each year.

I. POST RETIREMENT HEALTH CARE AND LIFE INSURANCE BENEFITS - N/A

GASB 12 requires the following disclosures about an employer's accounting for post retirement health care and life insurance benefits:

- 1. A description of the benefits provided and the employee group covered.
- 2. A description of the accounting and funding policies followed for those benefits.
- 3. The cost of those benefits recognized for the period, unless the costs are not readily determinable.**
- 4. The effect of significant matters affecting the comparability of the costs recognized for all periods presented.

**If the cost of any post retirement health care or life insurance benefits cannot readily be separated from the cost of providing such benefits for active employees or otherwise be reasonably approximated, the total cost of providing those benefits to active employees and retirees, as well as the number of active employees and the number of retirees covered by the plan must be disclosed.

Substantially all (BTA) employees become eligible for post employment health care, dental and life insurance benefits if they reach normal retirement age while working for the (BTA). These benefits for retirees and similar benefits for active employees are provided through an insurance company whose premiums are paid jointly by the employee and the (BTA). For 2004, the cost of providing those benefits for the retirees totaled \$
(BTA) provides certain continuing health care and life insurance benefits for its retired employees. Substantially all (BTA) employees become eligible for those benefits if they reach normal retirement age while working for the (BTA). Those benefits for retirees and similar benefits for active employees are provided through an insurance company whose monthly premiums are paid jointly by the employee and by the (BTA). The (BTA) recognizes the cost of providing these benefits ((BTA)'s portion of premiums) as an expenditure when paid during the year, which was \$ for the year ended, 20 The cost of providing those benefits for retirees is not separable from
the cost of providing benefits for the active employees. (or, The (BTA)'s cost of providing retiree health care and life insurance benefits are recognized as expenditures when the monthly premiums are paid. For the year ended, 20 the costs of retiree benefits totaled \$).

J. LEASES

OPERATING LEASES

The total payments for operating leases during fiscal year ended June 30, 2005 amounted to \$ 10,775. se

A schedule of payments for operating leases follows:

Nature of lease Office	<u>FY2006</u> \$ 11,075 \$	<u>FY2007</u> 11,375 \$	FY2008 950 \$	FY2009	FY20010	FY2011- 2015	FY2016- 2020

CAPITAL LEASES - N/A

Capital leases are (are not) recognized in the accompanying financial statements. The amounts to be accrued for capital leases and the disclosures required for capital and operating leases by National Council on Governmental Accounting (NCGA) Statement No. 5, as adopted by the Governmental Accounting Standards Board, and FASB 13 should be reported on the following schedules:

Capital leases are defined as an arrangement in which <u>any one</u> of the following conditions apply: (I) ownership transfers by the end of the lease, (2) the lease contains a bargain purchase option, (3) the lease term is 75% of the asset life or, (4) the discounted minimum lease payments are 90% of the fair market value of the asset.

3. LESSOR DIRECT FINANCING LEASES

A lease is classified as a direct financing lease (1) when any one of the four capitalization criteria used to define a capital lease for the lessee is met and (2) when both the following criteria are satisfied:

- Collectibility of the minimum lease payments is reasonably predictable.
- No important uncertainties surround the amount of the unreimbursable costs yet to be incurred by the lessor under the lease.

Provide a general description of the direct financing agreement, and complete the chart below:

	Composition of lease		Date of lease		Minimum lease payment receivable		Remaining Interest to end of lease	Remaining Principal to end of lease
a.	Office space	\$		_\$		\$_		\$
b.	Equipment			_		-

						==		

4. LESSOR - OPERATING LEASE

When a lease agreement does not satisfy at least one of the four criteria (common to both lessee and lessor accounting), and both of the criteria for a lessor (collectibility and no uncertain reimbursable costs), the lease is classified as an operating lease. In an operating lease, there is no simulated sale and the lessor simply records rent revenues as they become measurable and available.

Q. COOPERATIVE ENDEAVORS - N/A

LRS 33:9022 defines cooperative endeavors as any form of economic development assistance between

and among the state of Louisiana, its local governmental subdivisions, political corporations, public benefit corporations, the United States government or its agencies, or any public or private association, corporation, or individual. The term cooperative endeavor includes cooperative financing, cooperative development, or any form of cooperative economic development activity. The state of Louisiana has entered into cooperative endeavor agreements with certain entities aimed at developing the economy of the state.

Some cooperative endeavor contracts are not coded with a document type of "COP" on the Contract Financial Management Subsystem (CFMS), but are considered cooperative endeavors. Include these below with your cooperative endeavor contracts coded with a document type of "COP". Examples of contracts that are considered cooperative endeavors, but are not coded with a document type of "COP" include contracts that fall under delegated authority, Facility Planning and Control "CEA" contracts, certain federal government contracts, contracts that legislative auditors may have designated as such within your agency, work incumbent programs, etc. In prior years, this information was requested as supplemental documentation after the AFRs were submitted, usually in October or November.

The liability outstanding for fiscal year ending June 30, 2005, by funding source, is as follows:

Dolones

Balance <u>June 30, 2005</u>
\$

NOTE: Amounts in excess of contract limits **cannot** be used to reduce the outstanding contract balance at June 30, 2005. For example, if a contract specifies a percentage of usage for each month (25%) and usage exceeds that percentage (75%), you cannot claim actual usage that exceeds contract requirements (50%).

NOTE: In order to compute your ending balances by funding source, you should begin with your balances at June 30, 2004. These amounts will be increased by amounts for new contracts and amendments and decreased for payments as well as for liquidations.

W. SUBSEQUENT EVENTS - N/A

[Disclose any material event(s) affecting the (BTA) occurring between the close of the fiscal	period and
issuance of the financial statement.]	

X. SEGMENT INFORMATION - N/A

Governments that report enterprise funds or that use enterprise fund accounting and reporting standards to report their activities are required to present segment information for those activities in the notes to the financial statements. For the purposes of this disclosure, a segment is an identifiable activity (or group of activities), reported as or within an enterprise fund or an other stand-alone entity that has one or more bonds or other debt instruments outstanding, with a revenue stream pledged in support of that debt. In addition, the activity's revenues, expenses, gains and losses, assets, and liabilities are required to be

accounted for separately. This requirement for separate accounting applies if imposed by an external party, such as accounting and reporting requirements set forth in bond indentures. Disclosure requirements for each segment should be met by identifying the types of goods and services provided and by presenting condensed financial statements in the notes, including the elements in A through C below (GASB 34, paragraph 122, as modified by GASB 37, paragraph 17.)

Type of goods or services provided by the segment_	 	

A. Condensed Balance Sheet:

- (1) Total assets distinguishing between current assets, capital assets, and other assets. Amounts receivable from other funds or BTA's should be reported separately.
- (2) Total liabilities distinguishing between current and long-term amounts. Amounts payable to other funds or BTA's should be reported separately.
- (3) Total net assets distinguishing among restricted; unrestricted; and amounts invested in capital assets, net of related debt.

Condensed Balance Sheet:
